

Medical Terminology

Muscular System Terms

Name _____ Period _____

Part I: Define the Following Word Parts:

- | | | | |
|----|----------------|-----|-----------------|
| a. | bi _____ | s. | -taxia _____ |
| b. | fasc/o _____ | t. | -desis _____ |
| c. | kinesi/o _____ | u. | -ia _____ |
| d. | -lysis _____ | v. | my/o _____ |
| e. | -plegia _____ | w. | -rrhexis _____ |
| f. | ten/o _____ | x. | tendin/o _____ |
| g. | tend/o _____ | y. | ton/o _____ |
| h. | tri _____ | z. | ab _____ |
| i. | ad _____ | aa. | -duction _____ |
| j. | a _____ | bb. | hyper _____ |
| k. | -trophy _____ | cc. | electro _____ |
| l. | -gram _____ | dd. | -graphy _____ |
| m. | dys _____ | ee. | -itis _____ |
| n. | -tomy _____ | ff. | -plasty _____ |
| o. | -rrhaphy _____ | gg. | -rrhexis _____ |
| p. | -malacia _____ | hh. | -asthenia _____ |
| q. | -ology _____ | ii. | -ectomy _____ |
| r. | thermo _____ | jj. | -genesis _____ |

Part II: Words to Define (may use medical dictionary)

1. striated _____
2. intercalated disks _____
3. peristalsis _____
4. locomotion _____
5. aponeurosis _____

Part III: Words to Create

1. surgical union of a tendon (rw/v/s) _____
2. picture of the muscle's electrical impulse _____
(rw/v/rw/v/s)
3. difficulty moving (p/s) _____
4. repair of the muscles _____
(rw/v/s)
5. excessive development _____
(p/s)
6. cut into the fascia _____
(rw/v/s)
7. study of movement _____
(rw/v/s)
8. muscle paralysis _____
(rw/v/s)
9. inflammation of the tendon _____
(rw/v/s)
10. movement away from (the midline) _____
(rw/s)
11. production of heat _____
(rw/v/s)
12. softening of the muscle _____
(rw/v/s)
13. muscle weakness _____
(rw/s)
14. rupture of the tendon _____
(rw/v/s)
15. destruction of muscles _____
(rw/v/s)
